

Possible Projects 2009-10

The list contained in the agenda is made up of possible projects that have had some previous discussion, some that other agencies are keen to see implemented and headings that new ideas can be discussed and feasibility studies carried out. The following is a brief precise of ongoing progress on some of the suggested projects:

- **Formation of a Barrowford in Bloom Group:** The In Bloom theme is a nationally recognised competition which is divided into regional competitions Barrowford being under the Northwest Region. Despite its name the ethos of this competition and the groups that run it are not wholly devoted to flowers. The competition encourages community cohesion, reuse and restoration of grot spot, the creation of wildlife and wild flower habitat, whilst still encouraging floral displays and litter free streets.
- **Provision of Exercise Equipment at Bullholme:** This is the third phase of the Parish Councils strategy to provide a range of interesting play facilities centred on Bullholme. The Council has already submitted an expression of interest to the Aggregate Levy Fund for partial funding for this project.
- **Provision of Teen shelter at Bullholme:** The Police are keen to see this happen but have yet to discuss the matter further with Pendle Borough Council, the Parish Council, Youth Services or the Community safety Partnership. The Parish Council has seen this as a possible 4th phase of their strategy. The Council should enquire if planning permission is required and apply during the 2009-10 financial year.
- **Allotment Projects:** The Council could consider a larger project on one of the Councils sites, these could include bringing unused areas back into a state fit to let or continue boundary fencing on one of the larger sites.
- **Other Possible Projects:** These could include continuing existing projects such as the advanced driving scheme or assistance to existing groups such as the friends groups with help on specific projects in addition to the already agreed grant. Any suggestions from Councillors on possible projects would be appreciated.
