

Barrowford in Bloom 2008

Building on last year's extension of the scheme £1750.00 has been allocated for additional planters during 2008 – 09. The Clerk suggests that no extra planters are purchased until the autumn and used for the winter planting. This will allow time to see how the Booths development will affect the Halstead Lane Gisburn Road area of the village. The Clerk has spoken to Mr. Pinkus and has been told that the Parish Council will be consulted on street furniture matters so an opportunity for matching of railings and planters could be found.

Plants Required
